Site Director

Fullerton Neurology and Headache Center

Diana Londoño

Dr. Londoño is a Clinical Neurologist at Fullerton Neurology and Headache Center specializing in neuro-immunology with a focus on autoimmune neurological conditions like multiple sclerosis and neurodegenerative disorders such as Alzheimer's disease. She completed her medical education at Universidad Pontificia Bolivariana in Medellin, Colombia, conducted research at Massachusetts General Hospital, and completed her neurology residency at the University of Illinois College of Medicine. Following a fellowship at the Mayo Clinic, she now provides comprehensive care for a variety of neurological disorders, including epilepsy, stroke, and Parkinson's disease. She has a strong academic background, with publications in peer-reviewed journals, clinical trial leadership, and involvement in training medical students and residents.
